

## DB9 COUPE SPORTS PACK

DB9 Sports Pack has been developed with the driving enthusiast in mind. With DB9's outstanding chassis as its foundation, by tuning key components Sports Pack delivers an even more focused driving experience.

The components of these packs have been engineered to complement each other. The new spring and damper arrangement has been developed to work in harmony with the reduced un-sprung mass of the lightweight wheels and wheel nuts resulting in an exceptionally responsive suspension. Overall this pack offers improved body control and dynamic response along with a 'neutral' handling balance without any discernable degradation to the ride. Suitable for fitment only to DB9 Coupe.
